

Daily Spiral Review Day 1

1. OA.1

Tara and Stacey bought tickets for the carnival rides. Tara bought 12 tickets, which is 3 times as many as Stacey bought. How many tickets did Stacey buy?

2. MD.3

Mrs. James bought a square rug for her classroom, as shown below. Each square represents 2 feet. **What is the area and perimeter of the rug?**

3. OA.3

There were 15 people at the Moore family reunion. They ordered a total of 6 pizzas. Each pizza was cut into 10 slices. Each person ate 2 slices. How many pieces were left?

4. OA.4

What are all of the factor pairs for 18?

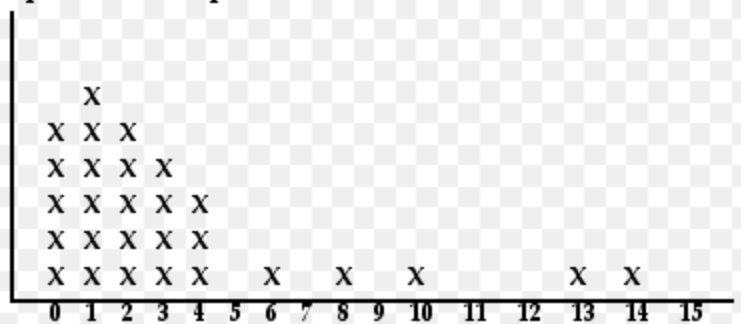

5. OA.1

David has 30 marbles. He has 5 times as many marbles as April has. How many marbles does April have?

6. MD.4

How many households have fewer than 3 pets?

line plot - number of pets in each household

The numbers represent the number of pets, the x's represent households with that number of pets
