

Daily Spiral Review Day 5

<p>1. OA.3 A restaurant owner has 4 pounds of celery for his salad bar. He needs three times as many pounds of carrots and five times as many pounds of tomatoes before he opens the restaurant today. How many pounds of celery, carrots and tomatoes does he need altogether?</p>	<p>2. MD.3 Tom had a square garden with side lengths of 8 feet. He expanded his garden to 10 feet by 8 feet. How many square feet did he expand the area of his garden?</p>
<p>3. OA.3 There are 8 students at each of the 6 round tables in the dining hall. There are 75 students at long tables. How many more students are at the long tables than the round tables?</p>	<p>4. OA.4 Chris arranged his building blocks into 2 rows of 12 blocks. Louis arranged his blocks into 6 rows of 4 blocks. If they each used the same number of blocks, what two other ways could they arrange their blocks?</p>
<p>5. OA.1 Susan spent \$16 on a new lamp. Eli spent half as much on a welcome mat. How much did they spend altogether?</p>	<p>6. MD.4 How many students spent less than 4 hours studying?</p> <div style="border: 1px solid black; padding: 10px; margin: 10px auto; width: fit-content;"> <p style="text-align: center;">Number of Hours Studying</p> </div>
