

Name _____

Date _____

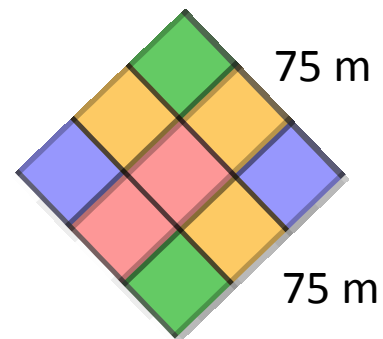

The **Willis Tower**, was built as and is still commonly referred to as the **Sears Tower**. It is a 110-story skyscraper in Chicago, Illinois.

Below is a diagram of the rectangular prisms within the Sears Tower skyscraper.

The base of the tower is
75 x 75 meters square.

Each floor is about
4 meters in height.

**Your challenge is to calculate the volume
of the Sears Tower in cubic meters.**
